

Python Innovation Hackathon

This certifies that **Ebi Emmerich-Adehor** successfully completed Masterschool's Python Hackathon, applying skills in software development, collaboration, and communication.

Throughout this intensive program, participants gained hands-on experience in:

Problem Solving & Design: From ideation and brainstorming to product planning.

Project Planning: Structuring milestones and collaborating with teammates.

Python Development: Building functional applications with API integration

Presentation: Communicating ideas and applying feedback.

The program strengthened teamwork, technical, and communication skills for real-world development environments.

Date of Issuance: 26 January 2026
